

## Partial Discharge Free Coupling Capacitors

Model CC25-1, 25 kV 1 nF, 50-400 Hz with base

Model CC50-1, 50 kV 1 nF, 50-400 Hz with base

Model CC100-1, 100 kV 1 nF, 50-400 Hz with base

Model CC200-1, 200 kV 1 nF, 50-60 Hz with base and casters

Model CC300-1, 300 kV, 1 nF, 50-60 Hz with base and casters

Model CC400-1, 400 kV, 1 nF, 50-60 Hz with base and casters

Model CC500-1, 500 kV, 1 nF, 50-60 Hz with base and casters

Model CC600-1, 600 kV, 1 nF, 50-60 Hz with base and casters

Model CC300-1

## Partial Discharge Free Injection Capacitors

Model IC100-0.1, 100 kV, 100 pF, 50-400 Hz with base

Model IC200-0.1, 200 kV, 100 pF, 50-60 Hz with base and casters

Model IC300-0.1, 300 kV, 100 pF, 50-60 Hz with base and casters

Model IC400-0.1, 400 kV, 100 pF, 50-60 Hz with base and casters

Model IC500-0.1, 500 kV, 100 pF, 50-60 Hz with base and casters

### NOTE:

- Injection capacitors require CALIC PD Calibrator
- Multiple channel PD systems require multiple capacitors
- 400 Hz operation available only up to 200 kV on both Coupling and Injection Capacitors

Model CC100-1

Model IC100-0.1
